# Wellesley College Report on Federal Awards in Accordance with the OMB Uniform Guidance Index June 30, 2017

Part I - Financial Statements and Schedule of Expenditures of Federal Awards
Report of Independent Auditors1–2
Financial Statements and Notes to Financial Statements
Schedule of Expenditures of Federal Awards
Notes to Schedule of Expenditures of Federal Awards
Part II - Reports on Internal Control and Compliance
Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>
Report of Independent Auditors on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with the Uniform Guidance
Part III - Findings and Questioned Costs
Schedule of Findings and Questioned Costs
Schedule of Status of Prior Audit Findings

Part I - Financial Statements and Schedule of Expenditures of Federal Awards

### **Report of Independent Auditors**

To the Board of Trustees of Wellesley College

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Wellesley College (the "College") which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*PricewaterhouseCoopers LLP, 101 Seaport Boulevard, Suite 500, Boston, MA 02210 T: (617) 530 5000, F: (617) 530 5001, www.pwc.com/us* 

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Wellesley College as of June 30, 2017 and 2016 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

### Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2017, is presented for purposes of additional analysis as required by Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2017 on our consideration of Wellesley College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters for the year ended June 30, 2017. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the College's internal control over financial reporting and compliance.

### 1. Summary of Significant Accounting Policies

### **Basis of Presentation**

The financial statements of Wellesley College (the "College") have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Resources are reported for accounting purposes in separate classes of net assets based on the existence or absence of donor-imposed restrictions. In the accompanying financial statements, net assets that have similar characteristics have been combined into similar categories as follows:

Unrestricted -- Net assets that are not subject to donor-imposed stipulations. These include all revenues, expenses, gains and losses that are not changes in permanently or temporarily restricted net assets. This category includes realized and unrealized gains and losses on unrestricted endowment. Unrestricted net assets may be designated for specific purposes by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties. Unrestricted net assets generally result from revenues derived from providing services, receiving unrestricted contributions, unrealized and realized gains and losses on unrestricted endowment, and receiving dividends and interest from investing in income producing assets, less expenses incurred in providing services, raising contributions, and performing administrative functions. The College records as unrestricted net assets any donor-restricted contributions for which the donor-imposed restrictions are met in the same reporting period as the contribution is received.

Temporarily restricted -- Net assets that are subject to donor-imposed stipulations that can be fulfilled by actions of the College pursuant to those stipulations or that expire by the passage of time. This category includes realized and unrealized gains and losses on the permanent endowment. Temporarily restricted net assets generally result from contributions and other inflows of assets whose use by the College is limited by donor-imposed stipulations or by law that either expire by passage of time or can be fulfilled and removed by actions of the College pursuant to those stipulations.

Permanently restricted -- Net assets that are subject to donor-imposed stipulations that they be maintained permanently by the College. Generally, the donors of these assets permit the College to use all or part of the investment return on these assets. Such assets primarily include the College's permanent endowment funds. Permanently restricted net assets generally represent the historical cost (market value at date of gift) of contributions and other inflows of assets whose use by the College is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by the College.

Expenses are reported as decreases in unrestricted net assets. Expirations of donor-imposed stipulations that simultaneously increase one class of net assets and decrease another are reported as reclassifications between the applicable classes of net assets.

Contributions restricted for the acquisition of land, buildings and equipment are reported as temporarily restricted revenues. These contributions are reclassified to unrestricted net assets upon acquisition of the assets or placed in service dates if the asset is constructed.

Nonoperating activities reflect transactions of a long-term investment or capital nature including contributions to be invested by the College to generate a return that will support future operations, contributions to be received in the future, contributions to be used for facilities and equipment, and investment return beyond what the College has appropriated for current operational support in accordance with the College's investment return spending guidelines. Nonoperating activities also include net realized and unrealized gains and losses on the interest rate swap, pension related changes other than net periodic pension cost and changes in matured planned giving agreements.

### **Cash and Cash Equivalents**

Cash and cash equivalents include short-term, highly liquid investments with a maturity of three months or less at the time of purchase. Cash and cash equivalents representing endowment assets and planned giving assets are included in investments and planned giving investments, respectively.

### Investments

Investments in marketable securities are carried at fair market value as established by the major securities markets. Purchases and sales of investments are recorded on the trade date of the transaction. Realized gains and losses arising from the sales of investments are recorded based upon the average cost of investments sold. Investment income is recorded on the accrual basis. The investment in faculty mortgages is stated at unpaid principal balances.

Venture capital and buyout limited partnerships include investments in both publicly and privately owned securities. The fair values of private investments are determined by the College and based on estimates and assumptions of the general partners or partnership valuation committees in the absence of readily determinable public market values. These values are audited annually by other auditors, most typically based on calendar year end information. The limited partnership valuations consider variables such as the financial performance of the investments, recent sales prices of similar investments and other pertinent information. The estimated values as determined by the general partners and investment managers may differ significantly from the values that would have been used had a ready market for the investments existed and the differences could be materially higher or lower.

Derivative investments in the College's portfolio may include currency forward contracts, currency and interest rate swaps, call and put options, exchange-traded futures contracts, debt futures contracts and other vehicles that may be appropriate in certain circumstances as permitted within the managers' investment guidelines. The College's external investment managers use investments in derivative securities predominantly to reduce interest rate risk and risk in the foreign fixed income market. The College's split-interest agreements with donors consist of irrevocable charitable gift annuities, pooled life income funds, charitable remainder unitrusts and annuities and perpetual trusts. Unitrusts, in which the College has a remainder interest, but that are held in trust and administered by outside agents, have been recorded as gifts that are temporarily restricted. Unitrusts, in which the College has a remainder interest, and which are managed by the College, periodically pay income earned on the assets to designated beneficiaries. The College adjusts unitrusts for both the estimated return on the invested assets and the contractual payment obligations during the expected term of the agreement. For planned giving contracts, the contributed assets are included at fair value within planned giving investments and investments on the Statement of Financial Position. Contribution revenues are recognized as of the date the donated assets are transferred to the College and liabilities are recorded for the present value of the estimated future payments to the donors or other beneficiaries. The liabilities are adjusted during the term of the planned giving contracts consistent with changes in the value of the assets and actuarial assumptions, and are included in annuities and unitrusts payable on the Statement of Financial Position.

Net gains on permanently restricted gifts are classified as temporarily restricted until appropriated for spending by the College in accordance with the Massachusetts Management of Institutional Funds Act, as updated in 2009. Future utilization of gains is dependent on market performance.

The College recognized no deficiencies of donor-restricted endowment funds for the year ended June 30, 2017, and \$776,000 for the year ended June 30, 2016.

### **Endowment Investment Return Spending Policy**

The College has adopted endowment investment and spending policies that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of endowment assets. The College's investment strategy is based on a long-term policy portfolio that serves as a guide for asset allocation. The Policy Portfolio was established with the goal of balancing long-term returns and risks by increasing portfolio diversification through the allocation of assets to less efficient asset classes. The return objective for the endowment assets, measured over a full market cycle, is to maximize the return against a blended index, based on the endowment's target allocation applied to the appropriate individual benchmarks. The College uses a "total return" approach to managing endowment assets in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). Funds are invested to maximize total return consistent with prudent risk without regard to the mix of current investment income and realized and unrealized gains or losses.

In October 2015, the Board of Trustees approved the Endowment Spending Policy which is in effect for the year ended June 30, 2017. Wellesley's Endowment Spending Policy is based on a combination of the prior year's spending and latest known endowment value with a weighting of 80% and 20%, respectively. Prior year spending is adjusted for Higher Education Price Index (HEPI) inflation, and 4.25% is the rate applied to the most recent endowment value on December 31. The amount of allowable spending will be capped at 5.0% or no less than 4.0% of the average of the last three fiscal year end endowment values adjusted for HEPI inflation. The Endowment Spending Policy is applied on a per unit basis. The sources of the payout are endowment earned income (interest and dividends), both current and previously reinvested income and a portion of realized gains. Investment return earned in prior years may be utilized if current year income is less than current year spend. The spending policy is designed to insulate investment policy from budgetary pressures, and to insulate program spending from fluctuations in capital markets.

### Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market and are included in prepaid, inventory and other assets on the Statement of Financial Position.

### Accounts Receivable and Student Loans Receivable

Accounts receivable include amounts due from students, student organizations and other miscellaneous receivables. Loans to students are carried at net realizable value. Accounts receivable for 2017 and 2016, are reported net of allowances for doubtful accounts of \$190,000 and \$287,000, respectively. Loans receivable for 2017 and 2016, are reported net of allowances for doubtful loans of \$747,000 and \$701,000, respectively. The provisions are intended to provide for student accounts and loans that may not be collected.

Determination of the fair value of student loan receivables is not practicable as such loans are primarily federally sponsored student loans with U.S. Government mandated interest rates and repayment terms subject to significant restrictions as to their transfer and disposition.

### **Grant Revenue**

Government grants normally provide for the recovery of direct and indirect costs, subject to audit. The College recognizes revenue associated with the direct costs as the related costs are incurred or expended. Recovery of related indirect costs is generally recorded at predetermined fixed rates negotiated with the government or at other predetermined rates determined by the grant provider.

### Pledges

The College recognizes the present value of unconditional promises to give as revenues in the period in which the pledges are made by donors.

### Land, Buildings, and Equipment

Land, buildings, and equipment are recorded at cost, or if donated, at fair market value at the date of donation. Additions to plant assets are capitalized while scheduled maintenance and minor renovations are charged to operations. Library books are expensed when purchased. Museum collections are not capitalized. Plant assets are presented net of accumulated depreciation. Interest, depreciation, operations, and maintenance expenses have been allocated to functional expense classifications based on square footage utilized. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts and gains and losses from disposal are included in the Statement of Activities. Depreciation is computed on a straight-line basis over the estimated useful lives of the related assets as follows:

	Years
Land improvements	20-40
Buildings and building improvements	20-40
Equipment	4-12

### **Financial Aid**

The Statement of Activities reflects financial aid as an offset to tuition and fee revenues. The College's financial aid is funded through private gifts, grants and endowment income (donor sponsored). Additional grants, when necessary, are funded through unrestricted institutional resources (institutionally sponsored).

### **Auxiliary Operations**

Auxiliary operations includes Summer Programs, the Nehoiden Golf Club and the Wellesley College Club, which operates a private dining and conference center, and use of the campus during the summer by internal and external groups. Related expenses include the direct expenses of running these operations, as well as an allocation for depreciation, debt service and physical plant maintenance and operation.

Room and board revenue is reported independently as a separate line item for the years ended June 30, 2017 and 2016. The correlating room and board expenses are included in the student services functional line item on the Statement of Activities.

### **Internal Revenue Code Status**

The College has been granted tax-exempt status as a nonprofit organization under section 501(c)(3) of the Internal Revenue Code.

### Asset Retirement and Environmental Obligations

Asset retirement and environmental obligations ("ARO") are legal obligations associated with long lived assets. The College recognizes the fair value of a liability that recognizes the legal obligations associated with environmental asset retirements in the period in which the obligation is incurred, typically when the College becomes obligated to remediate. These liabilities are initially recorded at fair value and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to the initial recognition, the College records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. The College adjusts the ARO liabilities when the related obligations are settled. Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the Statement of Activities.

### **Interest Rate Swap**

In fiscal year 2008, the College entered into an interest rate swap agreement on the Massachusetts Development Finance Agency, Variable Rate Revenue Bonds, Series I in order to convert the variable rate debt to fixed rate, thereby hedging against changes in the cash flow requirements of the College's variable rate debt obligations.

Net payments or receipts (difference between variable and fixed rate) under the swap agreement is recorded in the operating section of the Statement of Activities as an allocation to the functional expense categories and is treated as another component of debt service. The change in fair value of the swap is recorded in the nonoperating section of the Statement of Activities as net realized/unrealized gain/(loss) on interest swap.

### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### **New Accounting Pronouncements**

In May 2014, the FASB issued Accounts Standards Update (ASU) 2014-09 Revenue from Contracts with Customers. This standard implements a single framework for recognition of all revenue earned from customers. This framework ensures that entities appropriately reflect the consideration to which they expect to be entitled in exchange for goods and services by allocating transaction price to identified performance obligations and recognizing revenue as performance obligations are satisfied. Qualitative and quantitative disclosures are required to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The standard is effective for fiscal years beginning after December 15, 2017. The College is evaluating the impact this will have on the financial statements beginning in Fiscal Year 2019.

In February 2016, the FASB issued ASU 2016-02, Leases, which, for operating leases, requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. The guidance also expands the required quantitative and qualitative disclosures surrounding leases. The standard is effective for fiscal years beginning after December 15, 2018. The College is evaluating the impact this will have on the financial statements beginning in Fiscal Year 2020.

In August 2016, the FASB issued ASU 2016-14, Presentation of Financial Statements for Not-for-Profit Entities. The new pronouncement amends certain financial reporting requirements for notfor-profit entities, including revisions to the classification of net assets and expanded disclosure requirements concerning expenses and liquidity. The standard is effective for fiscal years beginning after December 15, 2017. The College is evaluating the impact this will have on the financial statements beginning in Fiscal Year 2019.

### Reclassifications

During fiscal year 2017, the College implemented a revised Chart of Accounts in order to enhance reporting, to provide a more consistent accounting structure, and to reflect best practice NACUBO (National Association of College and University Business Officers) definitions.

### 2. Contributions Receivable

Contributions receivable, net, is summarized as follows at June 30 (\$000s):

	2017	2016
Unconditional promises expected to be collected in		
Less than one year	\$ 3,979	\$ 2,378
One year to five years	51,682	51,799
Over five years	26,878	 50,761
	82,539	104,938
Less: Discounts and allowance for uncollectible accounts	 12,621	 16,857
Net contributions receivable	\$ 69,918	\$ 88,081

Contributions receivable expected to be collected within one year are recorded at their net realizable value. Those expected to be collected in future years are recorded at the present value of estimated future cash flows. The present value of estimated future cash flows has been measured at the time of the contribution using rates indicative of the market and credit risk associated with the contribution. Discount rates used to calculate the present value of contributions receivable ranged from 3.0% to 5.0% at June 30, 2017 and 2.6% to 5.0% at June 30, 2016.

### 3. Land, Buildings and Equipment

Investment in land, buildings and equipment consists of the following at June 30 (\$000s):

	2017	2016
Land and land improvements Buildings and building improvements Equipment	\$ 50,093 508,763 7,880	\$ 50,093 463,538 8,152
Construction in progress	 52,330	 77,325
Less: Accumulated depreciation	619,066 283,222	599,108 266,522
	\$ 335,844	\$ 332,586

Depreciation expense was \$17,302,000 and \$15,912,000 for the years ended June 30, 2017 and 2016, respectively.

The College recognized \$978,000 and \$963,000 of operating expenses relating to the accretion of environmental liabilities associated with the asset retirement obligations for the years ended June 30, 2017 and 2016, respectively. Conditional asset retirement obligations of \$24,071,000 and \$23,383,000 at June 30, 2017 and 2016, respectively, are presented in the liabilities section of the Statement of Financial Position.

### 4. Investments

The book and fair values of investments at June 30, 2017 and 2016 were as follows:

The majority of College investments are invested in the College's long term investment pool. Assets in this pool include endowment assets, faculty mortgages, proceeds from sale of real estate assets, and planned giving assets.

The absolute return alternative asset investments include equity hedge funds, risk arbitrage, distressed securities and commodity hedge funds. The College's investments in these strategies use minimal leverage as part of their strategies.

Included in the Cash, Bonds and Equity portfolios are various investment vehicles including separate accounts, commingled funds, and hedge funds. The following table illustrates the detail of these holdings for the years ended June 30, 2017 and 2016 (\$000):

			20	017

gains/(losses)		78,290		155,001		-		233,291
Total return on endowment and planned giving investments		78,473		152,830		-		231,303
Investment return designated for current operations		(40,577)		(43,846)		-		(84,423)
	\$	37,896	\$	108,984	\$		\$	146,880

	2016							
	Un	restricted		mporarily estricted		manently stricted		Total
Dividends and interest (net of investment expenses of \$14,000,000) Net realized and unrealized	\$	(22)	\$	(2,909)	\$	1,294	\$	(1,637)
gains/(losses)		(1,379)		(37,812)		-		(39,191)
Total return on endowment and planned giving investments		(1,401)		(40,721)		1,294		(40,828)
Investment return designated for current operations		(27,523)		(55,880)				(83,403)
	\$	(28,924)	\$	(96,601)	\$	1,294	\$	(124,231)

The total return consisting of realized and unrealized gains and losses and dividends and interest net of investment management fees was 13.14% and (1.50%) for the fiscal years ended June 30, 2017 and 2016, respectively.

### 5. Fair Value Disclosures

The College has established a framework for measuring fair value under generally accepted accounting principles (GAAP). Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering assumptions, the College follows a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 Observable inputs such as quoted prices in active markets;
- Level 2 Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 Unobservable inputs in which there is little or no market data.

The following fair value hierarchy tables present information about the College's assets and liabilities measured at fair value on a recurring basis based upon the least observable level of significant input to the valuations at June 30, 2017 and 2016.

						2017			
(\$000s)		NAV Practical Expediant		Level 1		Level 2	Level 3	Total

Cash and other assets		25,158		88,651		-		-		113,809
Planned giving investments		64,268		25		-		-		64,293
Total assets at fair value	\$ 1	,684,002	\$	203,879	\$	-	\$	-	\$	1,887,881
Interest rate swap	\$	-	\$	-	\$	-	\$	22,348	\$	22,348

Interest rate swaps are valued at the present value of the series of net cash flows resulting from the exchange of fixed-rate payments for floating rate payments over the remaining life of the contract from balance sheet date. Each floating rate payment is calculated based on forward market rates at valuation date for each respective payment date. Inputs to determine discount factors and forward rates include market prices for reference securities, yield curves, credit curves, measures of volatility, prepayment rates, assumptions for nonperformance risk, and correlations of such inputs. Certain inputs are unobservable; therefore the fair value is categorized as Level 3.

The following tables present liabilities carried at fair value as of June 30, 2017 and 2016 that are classified within Level 3 of the fair value hierarchy.

				20	17				
(\$000s)	 Balance at July 1, 2016	U	ealized and Jnrealized ains/Losses	Purchases		Sales	 Fransfer in/ ut) of Level 3	_	Balance at ine 30, 2017

The College uses Net Asset Value (NAV) or its equivalent to determine the fair value of certain investments, which may not have a readily determined fair value. These investments also have various redemption restrictions and redemption terms. The following investments are measured at NAV as of June 30, 2017 and 2016.

					2017
(\$000s)		NAV Funds	Unfunded Commitment	Timing to Draw commitments	Redemption Terms/Restrictions

Beneficial interests in outside trusts held by third parties are valued at the present value of distributions expected to be received over the term of the agreement. These amounts are excluded from the tables presented above.

### 6. Pooled Funds

Endowment and similar fund assets are pooled on a unit market value basis whenever possible. Funds are added to or withdrawn from the pool at the unit market value at the beginning of the fiscal quarter in which the transaction takes place.

Pooled endowment funds were as follows as of June 30:

		2016
1,937,701 2,728,948 710.06	\$	1,790,390 2,716,209 659.15 30.76
	1,937,701 2,728,948	2,728,948 710.06

The following are the components of the pooled and nonpooled endowment funds at market value at June 30, 2017 and 2016 (\$000s):

	Units	Pooled Endowment	Nonpooled Endowment	Total Endowment
2017 Funds Endowment and similar funds Endowment funds Temporarily restricted funds Unrestricted and quasi-endowment	1,774,075 102,888 851,985	<ul> <li>\$ 1,259,696</li> <li>72,833</li> <li>604,959</li> <li>\$ 1,937,488</li> </ul>	\$ - 213 -	\$ 1,259,696 73,046 604,959
	2,728,948 Units	\$ 1,937,488 Pooled Endowment	\$ 213 Nonpooled Endowment	\$ 1,937,701 Total Endowment
<b>2016 Funds</b> Endowment and similar funds Endowment funds Temporarily restricted funds Unrestricted and quasi-endowment	1,764,978 94,791 856,440	\$ 1,163,385 62,269 564,523	\$ - 213 	\$ 1,163,385 62,482 564,523
	2,716,209	\$ 1,790,177	\$ 213	\$ 1,790,390

### 7. Related Parties

The College acts as fiscal agent for the Wellesley College Alumnae Association and a retired president of the College. Endowment investments held on their behalf are included in the College's long term investment pool and are reflected as part of the College's net assets or a pension liability. The market value of the assets totaled \$19,266,000 and \$17,773,000 at June 30, 2017 and 2016, respectively.

Mortgages due from faculty of \$20,480,000 and \$21,833,000 at June 30, 2017 and 2016, respectively, are included within investments on the Statement of Financial Position.

The College had Charitable Gift Annuities invested alongside the endowment with a market value of \$6,949,000 and \$5,911,000 at June 30, 2017 and June 30, 2016, respectively. These assets are included within the investments total on the Statement of Financial Position.

### 8. Bonds Payable and Lines of Credit

Indebtedness at June 30, 2017 and 2016 includes various bonds issued through the former Massachusetts Health and Education Facilities Authority (the Authority). On October 1, 2010, pursuant to certain provisions of Chapter 240 of the Acts of 2010 of the Massachusetts Legislature, signed into law by the Massachusetts governor on August 5, 2010, the Authority was merged into the Massachusetts Development Finance Agency (MDFA). Interest payments on debt totaled \$6,672,000 and \$6,280,000 during fiscal years 2017 and 2016, respectively.

During January 2008, the College issued \$57,385,000 in Series I tax-exempt variable rate demand bonds. The proceeds have been used for major asset preservation and modernization projects and were used to retire the Series F bonds, with \$30.0 million outstanding, on July 1, 2009, the earliest possible call date. The refunding allowed the College to realize the present value savings through a restructuring of the College's debt.

The Series I bonds, which mature in 2039, currently bear variable interest rates payable monthly. Interest on the bonds is calculated on the basis of twelve thirty-day months for a 360-day year. Pending the redemption of the Series F bonds, proceeds of the Series I bonds were deposited into a refunding account established under the indenture and held by the Trustee and were invested in authorized investments as directed by the College. At June 30, 2009, the trust fund of \$31,069,000 was available to service principal and interest obligations, which was fully repaid on July 1, 2009. Since the refunded bonds are no longer deemed to be outstanding for financial reporting purposes, neither the debt nor the irrevocable trust assets are included in the Statement of Financial Position.

During April 2012, the College issued \$49,800,000 in Series J tax-exempt bonds. The bonds mature in 2042. The proceeds were used for major asset preservation and modernization projects. The College incurred bond issue costs of \$499,000 associated with the issue which have been capitalized and are being amortized over the life of the bonds.

During April 2012, the College issued \$99,210,000 in Series K taxable bonds. The bonds mature in 2042. The proceeds were used for major asset preservation and modernization projects and were used to retire \$50,040,000 of Series H bond debt. The refunding allowed the College to realize the present value savings in restructuring of the College's debt. The College incurred costs of \$525,000 associated with the issue which have been capitalized and are being amortized over the life of the bonds. At June 30, 2017 and 2016, all of these construction funds have been drawn down to fund various construction projects.

On January 11, 2017, the College converted its existing Series E, G and I bonds from self-liquidity, variable rate demand bond structures to a variable rate direct placement with a financial institution.

Balances of outstanding bonds and notes payable at June 30 consisted of the following (\$000s).

	2017	2016
MDFA, Series I, Variable Rate Demand Bonds, bearing interest at a weekly rate, maturing July 2039.		
The rate at June 30, 2017 was 1.085%.	\$ 57,385	\$ 57,385
MDFA, Series G, Variable Rate Demand Bonds,		
bearing interest at a weekly rate, maturing July 2039.		
The rate at June 30, 2017 was 1.085%.	20,000	20,000
MDFA, Series E, Variable Rate Demand Bonds,		
bearing interest at a weekly rate, maturing July 2022.		
The rate at June 30, 2017 was 1.085%.	5,800	6,800
MDFA, Series J, Revenue Bonds, issued at		
an interest rate of 5.0%, maturing 2042.	49,800	49,800
Wellesley College, Series K, Taxable Bonds,		
bearing interest at a rate of 1.772% to 4.196%,		
maturing 2042.	 92,025	 94,045
Total debt	225,010	228,030
Less unamortized bond issue costs	(1,356)	(1,387)
Add unamortized original issue premium	 4,711	 4,898
	\$ 228,365	\$ 231,541

2018	\$ 3,175
2019	3,325
2020	1,200
2021	2,730
2022	3,820
Thereafter	 210,760
Total bonds and notes payable	\$ 225,010

The total of the College's bonds payable described above matures as follows (\$000s):

In order to reduce exposure to floating interest rates on variable rate debt, in January 2008, the College entered into an interest rate swap agreement, with a term through 2039. This swap effectively locks in a fixed rate of 3.239% per annum. The agreement has a notional amount of \$57,385,000. At June 30, 2017 and 2016, the market value of the swap agreement amounted to a liability of \$15,129,000 and \$22,348,000, respectively. The fair value of the swaps is the estimated amount that the College would receive or pay to terminate the agreement at the reporting date, taking into account current interest rates and the current credit worthiness of the swap counterparties. The value of the interest rate swap is reflected within accounts payable and accrued expenses on the Statement of Financial Position. The change in fair value of the swap is recorded in the nonoperating section of the Statement of Activities as net realized/unrealized gain or loss on interest swap. This financial instrument necessarily involves counterparty credit exposure and the College's own nonperformance risk. The counterparty for this swap agreement is a major financial institution that meets the College's criteria for financial stability and credit-worthiness. The change in fair value resulted in a gain of \$7.219,000 in 2017 and a loss of \$9.665,000 in 2016. Additionally, the College paid net interest expense in association with the swap agreement of \$1,456,000 and \$1,795,000 for the years ended June 30, 2017 and 2016, respectively, which are recorded in the operating section of the Statement of Activities as an allocation to the functional expense categories.

The College has outstanding debt at June 30, 2017 as follows: fixed rate debt of \$141,825,000 and variable rate debt of \$83,185,000. Included in variable rate debt is \$57,385,000 of synthetic fixed debt which is debt that has an underlying variable rate but has an interest rate swap agreement that effectively locks in a fixed rate.

In the event that the College receives notice of any optional tender on its variable-rate bonds, or if the bonds become subject to mandatory tender, the purchase price of the bonds will be paid from the remarketing of such bonds. However, if the remarketing proceeds are insufficient, the College will be obligated to purchase the bonds tendered with internal liquidity.

### 9. Annuities and Unitrusts Payable

The College has split-interest agreements consisting primarily of annuities, pooled life income funds, and charitable remainder unitrusts for which the College may or may not serve as trustee. Split-interest agreements are included in planned giving investments, and at June 30, 2017 and 2016, there is approximately \$6,949,000 and \$5,911,000, respectively, invested alongside the endowment, which are included within the investments total on the Statement of Financial Position. Contributions are recognized at the date the trusts are established net of a liability for the present value of the estimated future cash outflows to beneficiaries. The present value of payments is discounted at a rate of return that ranges from 4% to 6%. The liability of \$31,040,000 and \$31,185,000 at June 30, 2017 and 2016, respectively, is adjusted during the term of the agreement for changes in actuarial assumptions. Payments of income to beneficiaries are principally funded by the investment income of the related gift annuity and unitrust investments.

### **10.** Retirement Plans

The College has a defined contribution, noncontributory annuity pension plan for faculty and administrative personnel administered by the Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA/CREF). Under this Plan, the College contributed \$9,265,000 and \$8,793,000, respectively, for the years ended June 30, 2017 and 2016.

The College also has a defined benefit pension plan for certain classified office and service employees. The Plan provides retirement and death benefits based on the highest thirty-six months of consecutive earnings. Contributions to the plan are made in amounts sufficient to meet the minimum funding requirements set forth in the Employee Retirement Income Security Act of 1974. As of December 2012, this plan is no longer accepting new participants.

The measurement date of determining the benefit obligations and net periodic benefit cost for the defined benefit plan were June 30, 2017 and 2016.

The significant assumptions underlying the actuarial computations at June 30 were as follows:

	2017	2016
Assumptions used to determine benefit obligations Discount rate Rate of compensation increase	3.800% 3.000%	3.650% 3.000%
Assumptions used to determine net periodic benefit cost Discount rate Expected return on plan assets Rate of compensation increase	3.650% 7.000% 3.000%	4.400% 7.000% 3.000%
Change in projected benefit obligation (\$000s) Benefit obligation at end of prior year Service cost Interest cost Actuarial (gain) loss, net of administrative expenses paid Benefits paid	\$ $82,237 \\ 2,476 \\ 2,950 \\ (6,687) \\ (6,203)$	\$ 71,484 2,212 3,090 8,192 (2,742)
Benefit obligation at end of year	\$ 74,773	\$ 82,236
Accumulated benefit obligation	\$ 65,674	\$ 71,735
Change in plan assets (\$000s) Fair value of plan assets at end of prior year Actual return on plan assets, net of administrative expenses Employer contributions Benefits paid	\$ 47,802 5,074 1,700 (6,203)	\$ 49,367 1,177 - (2,742)
Fair value of plan assets at end of year	\$ 48,373	\$ 47,802
Funded status (\$000s) Funded status	\$ (26,399)	\$ (34,435)
Components of net periodic benefit cost (\$000s) Service cost Interest cost Expected return on plan assets Amortization of prior service cost Net loss (gain) on amortization	\$ 2,182 2,783 (3,343) 154 907	\$ 2,212 3,090 (3,210) 55 968
Net periodic benefit cost	\$ 2,683	\$ 3,115

(\$000s)	2017	2016		
New net actuarial (gain) loss Net (loss) gain on amortization Amortization of prior service cost	\$ (8,684) (1,658) (48)	\$ 10,226 (968) (55)		
	\$ (10,390)	\$ 9,203		
Amounts recognized in the statement of financial position consist of a liability (\$000s)	\$ (26,399)	\$ (34,435)		
Other changes in plan assets and benefit obligations recognized in unrestricted net assets (\$000s)				
Net prior service cost	-	48		
Net actuarial loss	 18,288	 28,630		
	\$ 18,288	\$ 28,678		

The amounts expected to be recognized as amortization of prior net service cost and the (gain)/losses to be recognized as a component of net periodic cost in the year are \$48,000 and \$55,000, respectively.

Estimated future benefit payments reflecting anticipated service, as appropriate, are expected to be paid as shown below (\$000's):

2018	\$ 3,090
2019	3,789
2020	3,537
2021	4,468
2022	4,252
2023-2026	23,780

The College expects to make an employer contribution into the defined benefit plan of \$2,250,000 in the 2018 fiscal year.

In selecting the long-term rate of return on assets, the College considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefit of the Plan. This included considering asset allocation and the expected returns likely to be earned over the life of the Plan as well as assessing current valuation measures, income, economic growth and inflation forecasts, and historical risk premiums. Although this basis is consistent with prior years, assumptions vary from year to year.

The investment objective and strategy of the Plan is to achieve returns above the balanced composite benchmark and maintain a level of volatility which approximates that of the composite benchmark using the following asset allocation:

Asset Category	<b>Target Allocation</b>
Equity securities	65%
Real estate investment trust	5%
Commodities	5%
Fixed income	25%
Cash and cash equivalents	0%
	100%

The following lists the Plan's asset allocation at June 30, 2017 and 2016:

Asset Category	 alue at 2 30, 2017 (000s)	2017	2016
Equity securities Real estate investment trust	\$ 34,167 2,408	71% 5%	56 % 8
Commodities Fixed income Cash and cash equivalents	 2,443 9,333	5% 5% 19% 0%	3 29 4
	\$ 48,351	100%	100 %

All pension plan assets are Level 2 assets, and all plan assets are in commingled funds.

The investment strategy for the pension assets is consistent with the approach to all other investment assets. The policies and strategies governing all investments for the College are designed to achieve targeted investment objectives while managing risk prudently. Risk management strategies include maintaining a diversified portfolio based on asset class, investment approach and security holdings. For the pension plan assets, an additional strategy is to maintain sufficient liquidity to meet benefit obligations as they become current.

### 11. Net Assets

Net assets consist of the following at June 30, 2017 and 2016 (\$000):

	2017	2016
Unrestricted		
Designated for specific purposes and plant	\$ 66,732	\$ 65,923
Quasi-endowment	574,713	535,580
	641,445	601,503
Temporarily restricted		
Endowment and similar funds including pledges	872,276	746,245
Annuity, life income and unitrusts including pledges	24,989	22,203
Deficiencies in donor-restricted endowments	-	776
Other restricted	107,804	108,192
	1,005,069	877,416
Permanently restricted		
Endowment including pledges	555,192	550,666
	555,192	550,666
	\$2,201,706	\$ 2,029,585

### 12. Endowment

In August 2008, guidance was issued on endowments of not-for-profit organizations related to net asset classification of funds subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act, and additional guidance was issued on enhanced disclosures for all endowment funds, which, among other things, provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) and additional disclosures about an organization's endowment funds.

The College's endowment consists of approximately 3,000 individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments (quasi funds). Net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

At June 30, 2017, endowment net assets consisted of the following:

(\$000s)	<b>Temporarily Permanently</b>							
	Unrestricted			Restricted		estricted	Total	
Donor-restricted funds Board-designated (quasi) and	\$	-	\$	812,713	\$	526,562	\$ 1,339,275	
other unrestricted funds		591,477		-		-	591,477	
	\$	591,477	\$	812,713	\$	526,562	\$ 1,930,752	

Changes in endowment net assets for the year ended June 30, 2017, consisted of the following (000's):

	Un	restricted	emporarily Restricted	rmanently estricted	Total
Endowment net assets at beginning of year	\$	558,073	\$ 698,627	\$ 527,779	\$ 1,784,479
Investment income, net of expenses Net appreciation	5	283	575	-	858
(realized and unrealized)		73,655	 157,023	 -	230,678
		632,011	856,225	527,779	2,016,015
Contributions and transfers to endowment		43	334	(1,217)	(840)
Appropriation of endowment assets for expenditure		(40,577)	 (43,846)	 -	(84,423)
Endowment net assets at end of year	\$	591,477	\$ 812,713	\$ 526,562	\$ 1,930,752

At June 30, 2016, endowment net assets consisted of the following (000's):

	Un	restricted	emporarily Restricted	rmanently Restricted	Total
Donor-restricted funds Board-designated (quasi) and	\$	-	\$ 698,627	\$ 527,779	\$ 1,226,406
other unrestricted funds			 -	 -	 558,073
	\$	558,073	\$ 698,627	\$ 527,779	\$ 1,784,479

Changes in endowment net assets for the year ended June 30, 2016, consisted of the following (000's):

	Unrestricted		Temporarily Restricted		Permanently Restricted			Total
Endowment net assets at beginning of year	\$	595,366	\$	776,743	\$	508,922	\$	1,881,031
Investment income, net of expenses Net appreciation		633		1,286		-		1,919
(realized and unrealized)		(11,238)		(22,907)		-	_	(34,145)
		584,761		755,122		508,922		1,848,805
Contributions and transfers to endowment Appropriation of endowment		835		(615)		18,857		19,077
assets for expenditure		(27,523)		(55,880)		-		(83,403)
Endowment net assets at end of year	\$	558,073	\$	698,627	\$	527,779	\$	1,784,479

### 13. Commitments and Contingencies

In 1975 the College identified the presence of soil tainted with various hazardous materials on the site of an abandoned 19th century paint factory acquired by the College in 1932. For the purposes of investigation and potential cleanup, the site has been segmented into various sub-areas, as follows: (1) the "Upper/Wetland/Pond" portion consisting of the former upland site of the paint factory, Paint Shop Pond, adjacent wetlands and Upper Waban Brook; (2) Lake Waban; and (3) Lower Waban Brook.

In 1991, the College arranged for the excavation of contaminated soils from two waste piles and a wastewater settling basin formerly associated with the paint factory. After the contaminated material was removed, the area was capped and seeded. These actions were undertaken in accordance with plans approved by the Department of Environmental Protection (DEP) on July 5, 1991. The College has continued to work with the DEP and has completed the process of remediating and restoring approximately 30 acres of land referred to as the Upland site. The College began in April 2001 excavating and consolidating contaminated soils from the upland, wetland, and pond ("Upland/Wetland/Pond") portions of the site. The soils have been treated and consolidated on site under a permanent engineered barrier. The capped area has been developed into three playing fields, an eight lane all-weather track, and a softball field and was completed in October 2002. The cost of this project was \$32.8 million; \$10 million has been funded from a HEFA bond issuance and the remainder from unrestricted endowment. Costs associated with the campus improvement project are capitalized as land improvements. Costs incurred to remediate this property are charged to expense when they can be estimated. Ongoing expenses associated with the monitoring and maintenance of the engineered barrier are charged to operations. Total expenses for this project were \$101,000 and \$71,000, respectively, for the years ended June 30, 2017 and 2016. The College has purchased an insurance policy to cover cost overruns associated with the Upland/Wetland/Pond project as well as the assessment, monitoring, and, if necessary, remediation of contaminated groundwater located under the Uplands/Wetlands/Pond area. In September 2004, the College submitted a report to the DEP recommending that no remedial action be taken in respect of the groundwater portion of the site beyond periodic monitoring of hexavalent chromium concentrations. The DEP has not yet responded to this report.

In 2001, the Commonwealth of Massachusetts and the College entered an agreement pursuant to which the Commonwealth agreed to share in the cost of dredging the Northern Shoreline and Western Cove portion of Lake Waban, with the Commonwealth's share capped at \$1.4 million. The dredging project was completed in 2002 at a total cost of approximately \$1.2 million. Additional reimbursable costs of approximately \$100,000 were incurred after the completion of dredging. In three payments made in 2005 and 2006, the Commonwealth reimbursed the College a total of approximately \$1.06 million, fully satisfying the Commonwealth's reimbursement obligations under the 2001 cost-sharing agreement. In a report filed with DEP in May 2005, the College recommended that no remedial action be taken in portions of Lake Waban beyond the Northern Shoreline and Western Cove, apart from periodic monitoring of water quality and fish growth patterns. DEP responded favorably to this report in a letter dated October 2005. The periodic monitoring program was initiated in 2008. The cost of this program is insignificant.

The Lower Waban Brook remedial project was originally anticipated to be undertaken in 2009 and was estimated to cost \$3,600,000. Early project designs based upon risk assessments and feasibility studies performed prior to 2000 were not embraced by all constituents as satisfactory. Additional hydrological data gathering has been undertaken in keeping with proposals still under review with DEP, with the intent to develop an updated feasibility study and remedy selection process. It is desirable but not yet clear whether a new process will result in material increases to previous project cost estimates. There were no expenses in 2017 or 2016 for remediation work for Lower Waban Brook. A liability of \$2,494,000 has been recorded as of June 30, 2017 and 2016, respectively, and is included in the Statement of Financial Position within accounts payable and accrued expenses.

Under the terms of certain limited partnership agreements, the College is obliged to periodically advance additional funding for private equity investments. Such commitments generally have fixed expiration dates or other termination clauses. The College maintains sufficient liquidity in its investment portfolio to cover such calls.

Outstanding commitments amounted to approximately \$337,816,000 and \$339,188,000 as of June 30, 2017 and 2016, respectively, for the following (000's):

	2017	2016		
Alternative investments Construction contracts	\$ 329,890 7,926	\$ 324,943 14,245		
	\$ 337,816	\$ 339,188		

The College built a gas-fired cogeneration plant capable of producing 7.5 megawatts of electricity. The plant supplies electricity for the entire campus. The College pays the Town of Wellesley \$111,000 annually as a guarantee for back-up power, at cost, to the College. This contract is in force until May 2018.

The College has several legal cases pending that have arisen in the normal course of its operations. The College believes that the outcome of these cases will have no material adverse effect on the financial position of the College.

### 14. Subsequent Events

The College has assessed the impact of subsequent events through October 30, 2017, the date the audited financial statements were issued, and has concluded that there are no such events that require adjustment to the audited financial statements or disclosure in the notes of the audited financial statements.

The accompanying notes are an integral part of the schedule.

### 1. Summary of Significant Accounting Policies

#### **Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") summarizes the expenditures of Wellesley College (the "College") under programs of the federal government for the year ended June 30, 2017 recorded on the accrual basis of accounting. The information in this Schedule is presented in accordance with the Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the activities of the College, it is not intended to, and does not, present the financial position, changes in net assets or cash flows of the College.

For purposes of the Schedule, federal awards include all grants, contracts and similar agreements entered into directly between the College and agencies and departments of the federal government and all subawards to the College by nonfederal organizations pursuant to federal grants, contracts and similar agreements. Negative amounts on the Schedule represent adjustments to expenditures reported in the prior year. Catalog of Federal Domestic Assistance ("CFDA") numbers and pass through numbers are provided when available.

Expenditures consist of direct and facility and administrative costs which are recognized as incurred using the accrual method of accounting and the cost accounting principles contained in the OMB Circular A-21, *Cost Principles for Educational Institutions*, or the Uniform Guidance as applicable. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement.

### 2. Facility and Administrative Costs

Facility and administrative costs allocated to certain awards for the year ended June 30, 2017 were based on predetermined rates negotiated with the College's federal oversight agency, the Department of Health and Human Services. The College negotiated four-year predetermined indirect cost rates of 75.3% for on-campus and 15.1% for off-campus activity based on salaries and wages. These rates are effective from July 1, 2013 through June 30, 2017. The College applied its predetermined approved facilities and administrative rates when charging indirect costs to federal awards rather than the 10% de minimis cost rate as described in Section 200.414 of the Uniform Guidance.

### 3. Federal Student Loan Programs

The Perkins Loan Program is administered directly by the College, except for functions performed by an outside third party service organization. Balances and transactions relating to this program are included in the College's financial statements. The total outstanding loan balance under the Perkins program was \$3,578,793 at June 30, 2017 and the College recovered no administrative cost allowance from the Perkins program for the year ending June 30, 2017. Part II - Reports on Internal Control and Compliance

### Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Trustees of Wellesley College

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Wellesley College (the "College"), which comprise the statement of financial position as of June 30, 2017, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 30, 2017.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

.....

*PricewaterhouseCoopers LLP, 101 Seaport Boulevard, Suite 500, Boston, MA 02210 T: (617) 530 5000, F: (617) 530 5001, www.pwc.com/us* 

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Pricewater hause Coopers LYP

Boston, MA October 30, 2017

### Report of Independent Auditors on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with the Uniform Guidance

To the Board of Trustees of Wellesley College

### **Report on Compliance for Each Major Federal Program**

We have audited Wellesley College's (the "College") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the College's major federal programs for the year ended June 30, 2017. The College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the College's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Wellesley College's compliance.

### Opinion on Each Major Federal Program

In our opinion, Wellesley College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

*PricewaterhouseCoopers LLP, 101 Seaport Boulevard, Suite 500, Boston, MA 02210 T: (617) 530 5000, F: (617) 530 5001, www.pwc.com/us* 

### **Report on Internal Control Over Compliance**

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance that a material weakness in internal control over compliance with a type of compliance with a type of compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
