Financial Statements

(With Independent Auditors' Report Thereon)

KPMG LLP Two Financial Center 60 South Street Boston, MA 02111

Exhibit I

Independent Auditors' Report

The Board of Trustees Wellesley College:

Report on the Financial Statements

We have audited the accompanying financial statements of Wellesley College (the College), which comprise the statement of financial position as of June 30, 2019, the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College as of June 30, 2019, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discussed in Note 1(p) to the financial statements, in 2019, the College adopted new accounting guidance, Financial Accounting Standards Board Accounting Standards Update (ASU) 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*. Our opinion is not modified with respect to this matter.

Other Matter

The accompanying 2018 summarized comparative information was derived from the College's financial statements as of and for the year ended June 30, 2018, which were audited by other auditors whose report thereon dated October 29, 2018 expressed an unmodified opinion on those financial statements, before the adjustments to adopt ASU 2016-14 as described in Note 1(p) to the 2019 financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived before the adjustments to adopt ASU 2016-14.

As part of our audit of the 2019 financial statements, we also audited the adjustments described in Note 1(p) that were applied to adopt ASU 2016-14 retrospectively in the 2018 summarized comparative information. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the audited financial statements from which the 2018 summarized comparative information was derived other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2018 financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 25, 2019, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

(1) Summary of Significant Accounting Policies

(a) Organization

Founded in 1870, Wellesley College (the College) is a private, nonprofit liberal arts college for women. In pursuit of the College mission, Wellesley prepares women for leadership roles and educates them to make a difference in the world.

(b) Basis of Presentation

The financial statements of Wellesley College have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) using the accrual basis of accounting.

For comparison purposes, the 2019 statement of activities has been presented with 2018 summarized comparative information in total but not by net asset class. This summarized 2018 information is not intended to and does not include sufficient detail to constitute a complete presentation of changes in net assets in conformity with GAAP. Accordingly, such information should be read in conjunction with the College's financial statements for the year ended June 30, 2019, from which the summarized information was derived before the adjustments described in note 2(p) were applied to adopt Accounting Standards Update (ASU) No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statement of Not-for-Profit Entities,* retrospectively to the 2018 summarized comparative information.

Resources are reported for accounting purposes in separate classes of net assets based on the existence or absence of donor-imposed restrictions. In the accompanying financial statements, net assets that have similar characteristics have been combined into similar categories as follows:

Without donor restrictions – Net assets that are not subject to donor-imposed stipulations, but may be designated for specific purposes by the College, or may otherwise be limited by contractual agreements with outside parties. The College records any donor-restricted contributions for which the donor-imposed restrictions are met in the same reporting period as the contribution is received within net assets without donor restrictions.

With donor restrictions – Net assets that are subject to donor-imposed stipulations that expire by the passage of time, can be fulfilled by actions of the College pursuant to the stipulations, or which may be perpetual.

Nonoperating activities reflect transactions of a long-term investment or capital nature including contributions to be invested by the College to generate a return that will support future operations, contributions to be received in the future, contributions to be used for facilities and equipment, and investment return beyond what the College has appropriated for current operational support in accordance with the College's investment return spending guidelines. Nonoperating activities also include net unrealized gains and losses on the interest rate swap, pension related changes other than net periodic pension cost, gifts and pledges, and changes in matured planned giving agreements.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

(c) Cash and Cash Equivalents

Cash and cash equivalents include short-term, highly liquid investments with a maturity of three months or less at the time of purchase. Cash and cash equivalents representing endowment assets and planned giving assets are included in investments and planned giving investments, respectively.

(d) Investments

Investments are generally carried at fair market value. Purchases and sales of investments are recorded on the trade date of the transaction. Realized gains and losses arising from the sales of investments are recorded based upon the average cost of investments sold. Investment income is recorded on the accrual basis. The investment in faculty mortgages is stated at unpaid principal balances.

For investments made directly by the College whose values are based on quoted market prices in active markets, the market price is used to report fair value. The College's interests in alternative investment funds such as hedge, private equity, and absolute return, are reported at the net asset value (NAV) reported by the fund managers. Unless it is probable that all or a portion of the investments sold for an amount other than NAV, the College has concluded that, as a practical expedient, NAV approximates fair value.

The College has established a framework for measuring fair value under generally accepted accounting principles (GAAP). The College determines fair value based on amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering assumptions, the College follows a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the college has the ability to access at measurement date.

Level 2: Quoted prices, other than those included in Level 1, that are either directly or indirectly observable for the assets or liabilities.

Level 3: No observable quoted prices, reliance on assumptions market participants would use if a market existed for the assets or liabilities.

Derivative investments in the College's portfolio may include currency forward contracts, currency and interest rate swaps, call and put options, exchange-traded futures contracts, debt futures contracts and other vehicles that may be appropriate in certain circumstances as permitted within the managers' investment guidelines. The College's external investment managers use investments in derivative securities predominantly to reduce interest rate risk and risk in the foreign fixed income market.

The College's split-interest agreements with donors consist of irrevocable charitable gift annuities, pooled life income funds, charitable remainder unitrusts and annuities and perpetual trusts. Unitrusts, in which the College has a remainder interest, but that are held in trust and administered by outside

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

agents, have been recorded as gifts that are with donor restriction. Unitrusts, in which the College has a remainder interest, and which are managed by the College, periodically pay income earned on the assets to designated beneficiaries. For planned giving contracts, the contributed assets are included at fair value within planned giving investments and investments on the Statement of Financial Position. Contribution revenues are recognized as of the date the donated assets are transferred to the College and liabilities are recorded for the present value of the estimated future payments to the donors or other beneficiaries. The liabilities are adjusted during the term of the planned giving contracts consistent with changes in the value of the assets and actuarial assumptions, and are included in annuities and unitrusts payable on the Statement of Financial Position.

(e) Endowment Investment Return Spending Policy

The College has adopted endowment investment and spending policies that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of endowment assets. The College's investment strategy is based on a long-term policy portfolio that serves as a guide for asset allocation. The Policy Portfolio was established with the goal of balancing long-term returns and risks by increasing portfolio diversification through the allocation of assets to less efficient asset classes. The return objective for the endowment assets, measured over a full market cycle, is to maximize the return against a blended index, based on the endowment's target allocation applied to the appropriate individual benchmarks. The College uses a "total return" approach to managing endowment assets in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). Funds are invested to maximize total return consistent with prudent risk without regard to the mix of current investment income and realized and unrealized gains or losses.

Wellesley's Endowment Spending Policy is based on a combination of the prior year's spending and a percentage of the latest endowment value with a weighting of 80% and 20%, respectively. Prior year spending is adjusted for Higher Education Price Index (HEPI) inflation, and 4.25% is the rate applied to the most recent endowment value on December 31. The amount of allowable spending will be capped at 5.0% or no less than 4.0% of the average of the last three fiscal year end endowment values adjusted for HEPI inflation. The Endowment Spending Policy is applied on a per unit basis. The sources of the payout are endowment earned income (interest and dividends), both current and previously reinvested income and a portion of realized gains. Investment return earned in prior years may be utilized if current year income is less than current year spend. The spending policy is designed to insulate investment policy from budgetary pressures, and to insulate program spending from fluctuations in capital markets.

In accordance with the Massachusetts Uniform Prudent of Management of Institutional Funds Act, the College considers the following factors in making a determination to appropriate for spending or accumulate donor-restricted endowment funds:

- 1. The duration and preservation of the fund
- 2. The purposes of the College and the donor-restricted endowment fund
- 3. General economic conditions

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

- 4. The possible effect of inflation and deflation
- 5. The expected total return from income and the appreciation of investments
- 6. Other resources of the College
- 7. The College's investment policies

(f) Receivables, Net

Accounts receivable include amounts due from students, student organizations and other miscellaneous receivables. Loans to students are carried at net realizable value. Student accounts receivable as of June 30, 2019 and 2018 are \$764,000 and \$799,000, respectively, and are reported net of allowances for doubtful accounts of \$187,000 and \$319,000, respectively. Loans receivable as of June 30, 2019 and 2018 were \$7,003,000 and \$7,205,000, respectively, and are reported net of allowances for doubtful loans of \$828,000 and \$768,000, respectively. The provisions are intended to provide for student accounts and loans that may not be collected. The remaining balance as of June 30, 2019 and 2018 consists of grants and other accounts receivable.

Determination of the fair value of student loan receivables is not practicable as such loans are primarily federally sponsored student loans with U.S. Government mandated interest rates and repayment terms subject to significant restrictions as to their transfer and disposition.

(g) Contributions

Contributions of cash and other assets, including unconditional promises to give, are recorded as revenue based on any donor-imposed restrictions on the date of the donors' commitment or gift. Contributions of other assets are recorded at their estimated fair value at the date of the gift. Unconditional pledges are recorded at their estimated present value, which approximates fair value, net of an allowance for uncollectible amounts. Conditional pledges are not recognized as revenue until such time as the conditions are substantially met.

(h) Land, Buildings, and Equipment

Land, buildings, and equipment are recorded at cost, or if donated, at fair market value at the date of donation. Additions to plant assets are capitalized while scheduled maintenance and minor renovations are charged to operations. Library books are expensed when purchased. Museum collections are not capitalized. Plant assets are presented net of accumulated depreciation. Interest, depreciation, operations, and maintenance expenses have been allocated to functional expense classifications based on square footage utilized. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts and gains and losses from disposal are included in the

Notes to Financial Statements June 30, 2019 (with summarized comparative information for June 30, 2018)

Statement of Activities. Depreciation is computed on a straight-line basis over the estimated useful lives of the related assets as follows:

	Years
Land, building and building improvements	15–60
Equipment	4–12

(i) Student Charges

The College recognizes revenue from tuition, fees, room, and board within the fiscal year in which educational services are provided. Financial aid, in the form of scholarships and grants, includes amounts funded by the endowment, gifts and unrestricted institutional resources. This amount reduces the published price of tuition for students receiving such aid. As such, financial aid is referred to as a tuition discount and represents the difference between the stated charge for tuition and fees and the amount that is billed to the student and/or third parties making payments on behalf of the student. Tuition and fee revenue was \$128,441,000 and \$121,912,000 at June 30, 2019 and 2018, respectively, and room and board revenue was \$35,549,000 and \$34,532,000. Financial aid provided to students totaled \$67,791,000 and \$63,250,000 for the years ended June 30, 2019 and 2018, respectively.

(j) Grant Revenue

Grants and contracts awarded by federal and other sponsors, which generally are considered nonexchange transactions restricted by sponsors for certain purposes, are recognized as revenue when qualifying expenditures are incurred and conditions under the agreements are met. The College has elected the simultaneous release option for conditional contributions that are also subject to purpose restrictions. Under this option, net assets without donor restrictions will include the donor-restricted contributions for which the purpose restrictions are met in the same reporting period as the revenue is recognized. Total revenue from grants and contracts recognized in net assets without donor restrictions was \$7,640,000 and \$10,437,000 for the years ended June 30, 2019 and 2018, respectively, are included in the governmental grants and private gifts and grants line on the Statement of Activities. Payments received from sponsors in advance of conditions being met are reported as deferred revenue, which totaled \$6,912,000 and \$8,512,000 as of June 30, 2019 and 2018, respectively.

Government grants normally provide for the recovery of direct and indirect costs, subject to audit. Recovery of related indirect costs is generally recorded at predetermined fixed rates negotiated with the government or at other predetermined rates determined by the grant provider.

(k) Auxiliary Operations

Auxiliary operations include summer programs, the Nehoiden Golf Club and the Wellesley College Club, which operates a private dining and conference center, and use of the campus during the summer by internal and external groups. Related expenses include the direct expenses of running these operations, as well as an allocation for depreciation, debt service and physical plant maintenance and operation.

Notes to Financial Statements June 30, 2019 (with summarized comparative information for June 30, 2018)

Room and board expenses are included in the student services functional line item on the Statement of Activities.

(I) Internal Revenue Code Status

The College has been granted tax-exempt status as a nonprofit organization under Section 501(c)(3) of the Internal Revenue Code.

The Tax Cuts and Jobs Act (the Act) was enacted on December 22, 2017. The Act impacts the College in several ways, including new excise taxes on executive compensation and net investment income, increases to unrelated business taxable income (UBTI) by the amount of certain fringe benefits for which a deduction is not allowed, changes to the net operating loss rules, repeal of the alternative minimum tax (AMT), and the computation of UBTI separately for each unrelated trade or business. Further, the Act reduces the US federal corporate tax rate and federal corporate unrelated business income tax rate from 35% to 21%.

The overall impact of the Act remains uncertain and the full impact of the Act will not be known until further regulatory guidance is provided to assist the College with calculating income and excise tax liabilities. For the year ended June 30, 2019, the College is subject to the federal excise tax imposed on college's and universities at 1.4%. The excise tax imposed is on net investment income, as defined under federal law, which includes interest, dividends, and net realized gains on assets subject to the tax. The current portion of the excise tax was approximately \$1,500,000. The College made provisions for a deferred tax liability, resulting from net unrealized gains on investment and recorded at the 1.4% tax rate, of \$3,400,000 for the year ended June 30, 2019.

(m) Asset Retirement and Environmental Obligations

Asset retirement and environmental obligations (ARO) are legal obligations associated with long lived assets. The College recognizes the fair value of a liability that recognizes the legal obligations associated with environmental asset retirements in the period in which the obligation is incurred, typically when the College becomes obligated to remediate. These liabilities are initially recorded at fair value and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to the initial recognition, the College records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. The College adjusts the ARO liabilities when the related obligations are settled. Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the Statement of Activities.

(n) Interest Rate Swap

In fiscal year 2008, the College entered into an interest rate swap agreement in conjunction with the issuance of the Massachusetts Development Finance Agency, Variable Rate Revenue Bonds, Series I in order to convert the variable rate debt to fixed rate, thereby hedging against changes in the cash flow requirements of the College's variable rate debt obligations.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

Net payments or receipts (differences are between variable and fixed rate) under the swap agreement are recorded in the operating section of the Statement of Activities as an allocation to the functional expense categories and are treated as another component of debt service. The change in fair value of the swap is recorded in the nonoperating section of the Statement of Activities as net unrealized gain(loss) on interest swap.

(o) Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(p) New Accounting Pronouncements

In May of 2014, ASU 2014-09, *Revenue from Contracts with Customers*, was issued by the FASB and is intended to improve the financial reporting requirements for revenue from contracts with customers. The ASU establishes a five-step model and application guidance for determining the timing and amount of revenue recognition. The related application guidance in the ASU replaces most existing revenue recognition guidance in GAAP. The College's adoption of the ASU did not materially change the timing or amount of revenue recognized by the College. However, the ASU requires that tuition, fees and auxiliary student revenues be presented in the statement of activities at the transaction price, i.e., net of any institutional student aid. Previously, such revenues were presented gross, i.e., at published rates, followed by a reduction for institutional student aid. The College has retrospectively adopted this accounting standard in fiscal year 2019. Accordingly, the College's 2018 statement of activities has been revised to conform to the 2019 presentation.

In June 2018, the FASB issued ASU 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. The new ASU is intended to assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonexchange transactions) within the scope of *Topic 958, Not-for-Profit Entities*, or as exchange transactions subject to other guidance and (2) determining whether a contribution is conditional. The ASU clarifies that a contribution is conditional if the agreement includes one or more barriers that must be overcome for the recipient to be entitled to the assets transferred and a right of return for the transferred assets or a right of release of the promisor's obligation to transfer assets. The ASU became effective for the College for the year ended June 30, 2019. The College's adoption of the ASU on a modified prospective basis did not have a material effect on its financial statements.

In 2019 the College adopted Financial Accounting Standards Board Accounting Standards Update (ASU) No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities.* The primary changes, which affect most not-for-profit financial statements, include revisions to simplify and enhance the presentation of net assets, a requirement to present functional and natural expenses in a single location, and expanded disclosures regarding liquidity and availability of resources. The ASU is effective for fiscal years beginning after December 15, 2017. A

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

summary of the net asset reclassifications resulting from the adoption of ASU 2016-14 as of June 30, 2018 and 2017 is as follows (in thousands):

	ASU 2016-14 Classification				
	Without donor restrictions	With donor restrictions	Total net assets		
2018 ending net assets as previously presented:					
Unrestricted	\$ 637,501	_	637,501		
Temporarily restricted	—	1,113,462	1,113,462		
Permanently restricted		581,807	581,807		
2018 ending net assets, as reclassified	\$ 637,501	1,695,269	2,332,770		

		ASU 2016-14 Classification				
	Without donor restrictions		With donor restrictions	Total net assets		
2017 ending net assets as previously presented:						
Unrestricted	\$	641,445	—	641,445		
Temporarily restricted		—	1,005,069	1,005,069		
Permanently restricted			555,192	555,192		
2017 ending net assets, as reclassified	\$	641,445	1,560,261	2,201,706		

(q) Reclassifications

Certain other reclassifications have been made to the 2018 information to confirm to the 2019 presentation.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

(2) Liquidity and Availability

As of June 30, 2019, financial assets and liquidity resources available within one year for general expenditure, such as operating expense, interest and principal payments on debt, and capital renewal programs, were as follows (in thousands):

	_	2019
Financial assets:		
Cash and cash equivalents	\$	92,381
Contributions and accounts receivable, net		12,034
Fiscal 2020 endowment appropriation	_	91,452
Total financial assets available Liquidity resources:		195,867
Bank line of credit available	_	60,000
Total financial assets and other		
liquidity resources available	\$_	255,867

To manage liquidity, the College regularly monitors the availability of resources available to meet its general operating expenditures. Cash flows are subject to seasonal variations attributable to the timing of tuition billings, receipts of gifts and grants, pledge payments and transfers from the endowment.

In addition, as of June 30, 2019, the College had \$663 million of board designated endowment funds. Although the College does not intend to spend from its board-designated endowment funds, these amounts could be made available with Board approval, subject to liquidity provisions of underlying investments.

(3) Contributions Receivable

Contributions receivable, net, is summarized as follows at June 30 (in thousands):

	 2019	2018
Unconditional promises expected to be collected in:		
Less than one year	\$ 10,898	13,348
One year to five years	24,187	52,238
Over five years	13,083	12,916
Less discounts and allowance for uncollectible accounts	 (6,024)	(10,399)
Total	42,144	68,103
Assets held by external trustee	 7,902	8,963
Contributions receivable, net	\$ 50,046	77,066

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

Contributions receivable expected to be collected within one year are recorded at their net realizable value. Those expected to be collected in future years are recorded at the present value of estimated future cash flows. The present value of estimated future cash flows has been measured at the time of the contribution using rates indicative of the market and credit risk associated with the contribution. Discount rates used to calculate the present value of contributions receivable ranged from 3.0% to 6.0% as of June 30, 2019 and 2018.

(4) Land, Buildings and Equipment

Investment in land, buildings and equipment consists of the following at June 30 (in thousands):

	 2019	2018
Land and land improvements	\$ 50,107	50,093
Buildings and building improvements	586,021	565,525
Equipment	9,371	8,511
Construction in progress	 94,175	28,645
	739,674	652,774
Less accumulated depreciation	 (318,791)	(299,175)
Total	\$ 420,883	353,599

Depreciation and amortization expense was \$20,733,000 and \$20,359,000 for the years ended June 30, 2019 and 2018, respectively.

The College recognized \$932,000 and \$1,026,000 of operating expenses relating to the accretion of environmental liabilities associated with the asset retirement obligations for the years ended June 30, 2019 and 2018, respectively. Conditional asset retirement obligations of \$21,850,000 and \$24,348,000 at June 30, 2019 and 2018, respectively, are presented in the liabilities section of the Statement of Financial Position.

Total charitable remainder trusts		17,578	16,660
Total planned giving investments	\$	57,764	57,562

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

The majority of College investments are invested in the College's long term investment pool. Assets in this pool include endowment assets, faculty mortgages, and planned giving assets.

The absolute return alternative asset investments include equity hedge funds, risk arbitrage, distressed securities and commodity hedge funds. The College's investments in these strategies use minimal leverage as part of their strategies.

Under the terms of certain limited partnership agreements, the College is obliged to periodically advance additional funding for private equity investments. Such commitments generally have fixed expiration dates or other termination clauses. The College maintains sufficient liquidity in its investment portfolio to cover such calls. Outstanding commitments amounted to approximately \$357,601,000 and \$343,425,000 as of June 30, 2019 and 2018, respectively.

Fair Value Disclosures

The following fair value hierarchy tables present information about the College's assets and liabilities measured at fair value on a recurring basis valued at June 30, 2019 and 2018 (in thousands):

				2019

Interest rate swaps are valued at the present value of the series of net cash flows resulting from the exchange of fixed-rate payments for floating rate payments over the remaining life of the contract from balance sheet date. Each floating rate payment is calculated based on forward market rates at valuation date for each respective payment date. Inputs to determine discount factors and forward rates include market prices for reference securities, yield curves, credit curves, measures of volatility, prepayment rates, assumptions for nonperformance risk, and correlations of such inputs. Certain inputs are unobservable; therefore the fair value is categorized as Level 3.

The following tables present planned giving investment assets and faculty mortgages carried at fair value as of June 30, 2019 and 2018 that are classified within Level 3 of the fair value hierarchy (in thousands):

	2019

(6) Related Parties

The Wellesley College Alumnae Association is a separate 501(c)(3) organization whose mission is to support the institutional priorities of Wellesley College. Endowment investments held on its behalf are included in the College's long term investment pool and are reflected as part of the College's assets and liabilities. Assets at fair value totaled \$9,001,000 and \$8,753,000 at June 30, 2019 and 2018, respectively and are included within investments on the Statement of Financial Position.

Mortgages due from faculty of \$23,056,000 and \$22,011,000 at June 30, 2019 and 2018, respectively, are included within investments on the Statement of Financial Position.

The College had Charitable Remainder Trusts, where the College is the trustee, invested alongside the endowment with a market value of \$8,140,000 and \$7,777,000 at June 30, 2019 and June 30, 2018, respectively. These assets are included within the investments total on the Statement of Financial Position.

(7) Bonds Payable and Lines of Credit

Indebtedness at June 30, 2019 and 2018 includes various bonds issued through the Massachusetts Development Finance Agency (MDFA). Interest payments on debt totaled \$11,979,000 and \$7,290,000 during fiscal years 2019 and 2018, respectively.

During January 2017, the College converted its existing Series E, G and I bonds from self-liquidity, variable rate demand bond structures to a variable rate direct placement with a financial institution.

During March 2018, the College issued \$96,500,000 in Series L tax-exempt bonds. The bonds mature in 2048. The proceeds were used to retire \$5,800,000 of Series E bond debt and fund the renovation of the College's Science Center and other capital projects. The College incurred bond issue costs of \$821,000 associated with the issue which have been capitalized and are being amortized over the life of the bonds.

The College has an available line of credit with a bank. The line of credit allows the College to borrow up to \$60 million, with various terms and an interest rate at LIBOR. This line of credit can be used for varying purposes and expires on March 01, 2023. As of June 30, 2019 and 2018, there were no amounts drawn or outstanding under this line of credit.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

Balances of outstanding bonds payable at June 30 consisted of the following (in thousands):

	 2019	2018
MDFA, Series I, Variable Rate Demand Bonds, bearing interest at a weekly rate, maturing July 2039.		
The rate at June 30, 2019 was 2.424%. MDFA, Series G, Variable Rate Demand Bonds, bearing	\$ 57,385	57,385
interest at a weekly rate, maturing July 2039.		
The rate at June 30, 2019 was 1.944%.	20,000	20,000
MDFA, Series J, Revenue Bonds, issued at an interest rate of 5.0%, maturing 2042.	49,800	49,800
Wellesley College, Series K, Taxable Bonds, bearing interest at a rate of 2.421% to 4.196%, maturing 2042. MDFA, Series L, Revenue Bonds, issued at an interest	87,625	89,850
rate of 3.000% to 5.000%, maturing 2048.	 95,480	96,500
Total bonds payable	310,290	313,535
Less unamortized bond issue costs	(1,932)	(2,030)
Add unamortized original issue premium	 12,860	13,556
	\$ 321,218	325,061

The total of the College's bonds payable described above matures as follows (in thousands):

2020		\$ 1,140
2021		2,685
2022		3,790
2023		4,555
2024		3,620
Thereafter		294,500
	Total bonds payable	\$ 310,290

In order to reduce exposure to floating interest rates on variable rate debt, in January 2008, the College entered into an interest rate swap agreement, with a term through 2039. This swap effectively locks in a fixed rate of 3.239% per annum. The agreement has a notional amount of \$57,385,000. At June 30, 2019 and 2018, the market value of the swap agreement amounted to a liability of \$16,708,000 and \$11,371,000, respectively. The fair value of the swaps is the estimated amount that the College would receive or pay to terminate the agreement at the reporting date, taking into account current interest rates and the current credit worthiness of the swap counterparties. The value of the interest rate swap is reflected within other liabilities on the Statement of Financial Position. The change in fair value of the swap is recorded in the nonoperating section of the Statement of Activities as net unrealized gain or loss on

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

interest swap. This financial instrument necessarily involves counterparty credit exposure and the College's own nonperformance risk. The counterparty for this swap agreement is a major financial institution that meets the College's criteria for financial stability and credit-worthiness. The change in fair value resulted in a loss of \$5,337,000 in 2019 and a gain of \$3,759,000 in 2018. Additionally, the College paid net interest expense in association with the swap agreement of \$877,000 and \$1,385,000 for the years ended June 30, 2019 and 2018, respectively, which are recorded in the operating section of the Statement of Activities as an allocation to the functional expense categories.

Restricted cash represents amounts for construction held by trustees in association with the Massachusetts Development Finance Agency Series L bond issue. The College had cash on deposit with bond trustees of \$28,383,000 and \$95,190,000 as of June 30, 2019 and 2018, respectively.

In the event that the College receives notice of any optional tender on its variable-rate bonds, or if the bonds become subject to mandatory tender, the purchase price of the bonds will be paid from the remarketing of such bonds. However, if the remarketing proceeds are insufficient, the College will be obligated to purchase the bonds tendered with internal liquidity.

(8) Annuities and Unitrusts Payable

The College has split-interest agreements consisting primarily of annuities, pooled life income funds, and charitable remainder unitrusts for which the College may or may not serve as trustee. Split-interest agreements are included in planned giving investments, and at June 30, 2019 and 2018, there is approximately \$8,140,000 and \$7,777,000, respectively, invested alongside the endowment, which are included within the investments total on the Statement of Financial Position. Contributions are recognized at the date the trusts are established net of a liability for the present value of the estimated future cash outflows to beneficiaries. The present value of payments is discounted at a rate of return that ranges from 3.5% to 4%. The liability of \$29,101,000 and \$30,735,000 at June 30, 2019 and 2018, respectively, is adjusted during the term of the agreement for changes in actuarial assumptions. Payments of income to beneficiaries are principally funded by the investment income of the related gift annuity and unitrust investments.

(9) Retirement Plans

The College has a defined contribution, noncontributory annuity pension plan for faculty and administrative personnel administered by the Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA/CREF). Under this Plan, the College contributed \$8,515,000 and \$8,887,000, respectively, for the years ended June 30, 2019 and 2018.

The College also has a defined benefit pension plan for certain classified office and service employees. The Plan provides retirement and death benefits based on the highest thirty-six months of consecutive earnings. Contributions to the plan are made in amounts sufficient to meet the minimum funding requirements set forth in the Employee Retirement Income Security Act of 1974. As of December 2012, this plan is no longer accepting new participants.

The measurement date of determining the benefit obligations and net periodic benefit cost for the defined benefit plan were June 30, 2019 and 2018.

2025–2028	 23,050
	\$ 44,073

The College expects to make an employer contribution into the defined benefit plan of \$2,000,000 in the 2020 fiscal year.

In selecting the long-term rate of return on assets, the College considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefit of the Plan. This included considering asset allocation and the expected returns likely to be earned over the life of the Plan as well as assessing current valuation measures, income, economic growth and inflation forecasts, and historical risk premiums. Although this basis is consistent with prior years, assumptions vary from year to year.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

The following lists the Plan's asset allocation at June 30, 2019 and 2018 (in thousands):

Asset category	 Value at June 30, 2019	Value at June 30, 2018	
Equity securities	\$ 34,723	35,181	
Real estate investment trust	3,622	1,069	
Commodities	2,690	3,542	
Fixed income	12,270	9,859	
Cash and cash equivalents	 (186)	1,288	
	\$ 53,119	50,939	

All pension plan assets are categorized in Level 1 of the fair value hierarchy and are in commingled funds.

The investment strategy for the pension assets is consistent with the approach to all other investment assets. The policies and strategies governing all investments for the College are designed to achieve targeted investment objectives while managing risk prudently. Risk management strategies include maintaining a diversified portfolio based on asset class, investment approach and security holdings. For the pension plan assets, an additional strategy is to maintain sufficient liquidity to meet benefit obligations as they become current.

(10) Net Assets

Net assets consist of the following at June 30, 2019 and 2018 (in thousands):

	 2019	2018
Without donor restrictions:		
Board designated endowments:		
Student financial aid	\$ 40,722	42,821
Professorships	112,648	107,537
Other programming	 510,386	497,394
Total board designated endowments	663,756	647,752
Undesignated	(64,859)	(74,807)
Accrued pension liability	(27,150)	(23,453)
Net investment in plant	 89,490	88,009
Total without donor restrictions	 661,237	637,501

Notes to Financial Statements

June 30, 2019

(with summarized comparative information for June 30, 2018)

	 2019	2018
With donor restrictions:		
Donor restricted endowments:		
Student financial aid	\$ 585,702	567,724
Professorships	430,173	430,400
Other programming	 493,784	459,336
Total donor restricted endowments	1,509,659	1,457,460
Purpose restricted and other:		
Student financial aid and loans	1,079	1,542
Gifts and plant	171,457	188,614
Research	2,753	2,563
Unexpended endowment income	10,528	27,927
Other	 19,872	17,163
Total with donor restrictions	 1,715,348	1,695,269
Total net assets	\$ 2,376,585	2,332,770

(11) Endowment

The College's endowment consists of approximately 2,000 individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments (quasi funds). Net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

At June 30, 2019, endowment net assets consisted of the following:

	2019				
	Without donor restrictions	With donor restrictions	Total		
Board designated endowment funds Donor-restricted endowment funds:	\$ 663,756	—	663,756		
Historical cost	_	595,206	595,206		
Appreciation		914,453	914,453		
Total endowment net assets	\$ 663,756	1,509,659	2,173,415		

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

	2018				
	Without donor restrictions		With donor restrictions	Total	
Board designated endowment funds Donor-restricted endowment funds:	\$	647,752	—	647,752	
Historical cost		—	579,409	579,409	
Appreciation			878,051	878,051	
Total endowment net assets	\$	647,752	1,457,460	2,105,212	

Changes in endowment net assets for the year ended June 30, 2019 and 2018 were as follows (in thousands):

	 thout donor estrictions	With donor restrictions	Total
Balance June 30, 2018 Net investment return	\$ 647,752 44,409	1,457,460 92,640	2,105,212 137,049

Balance June 30, 2019	\$ 663,756	1,509,659	2,173,415
	 ithout donor estrictions	With donor restrictions	Total
Balance June 30, 2017 Net investment return Contributions and transfers Distributions	 		Total 1,930,752 205,787 58,706 (90,033)

The College had no underwater donor-restricted endowment funds for the years ended June 30, 2019 and 2018.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

(12) Expenses

The statement of activities presents expenses by functional classification. The College also summarizes its expenses by natural classification. The composition of expenses for the years ended June 30, 2019 and 2018 in natural classification are as follows (in thousands):

	S	alaries and	Employee	Supplies and	Other	Depreciation, amortization	Total expenses	
	-	wages	benefits	services	expenses	and interest	2019	2018

Total operating expenses for 2018	\$_	98,879	34,323	18,977	47,675	30,895		230,749

(13) Commitments and Contingencies

In 1975, the College identified the presence of soil tainted with various hazardous materials on the site of an abandoned 19th century paint factory acquired by the College in 1932. After the passage of federal and state "superfund" laws in the early 1980's, under which the College had liability for the legacy paint factory contamination as the property's current owner, and after the promulgation in the late 1980s of state regulations governing the process for responding to the public health and ecological risks posed by contaminated land, the College undertook a lengthy process of investigation, remediation and monitoring. This process was substantially completed by 2014, but the College remains responsible for the periodic monitoring of conditions at the paint factory site.

Early in the process, the site was divided into four basic parts or units. These were: (1) Upland/Wetland/ Pond; (2) Groundwater; (3) Lake Waban; and (4) Lower Waban Brook. In 2001, the College commenced the remediation of the Upland/Wetland/Pond portion of the Site. The Uplands remediation involved the excavation and consolidation, on-site, of soils and sediments impacted by historic paint pigment releases. The consolidation area was capped with recreational playing fields. The Upland/Wetland/Pond project cost \$32.8 million, and was formally completed with the filing of closure documentation with the Massachusetts Department of Environmental Protect ion (MassDEP) in 2005. The College continues to maintain the recreational field cap over the consolidation area (activities it would perform anyway as part of normal field maintenance), and, at a minor annual cost, to monitor groundwater and sediment quality adjacent to the consolidation area. No additional remedial efforts are anticipated at the Upland/Wetland/Pond unit.

Notes to Financial Statements

June 30, 2019 (with summarized comparative information for June 30, 2018)

In 2004, the College submitted to MassDEP a recommendation that the Groundwater unit of the site be routinely monitored for the "natural attenuation" that was expected to occur following completion of the Upland/Wetland/Pond project, which eliminated major sources of contaminant transport to ground water. Since then, the College has been periodically monitoring groundwater quality and submitting the results to MassDEP. Groundwater monitoring is performed at a minor annual cost. No additional remedial efforts are anticipated at the Groundwater unit.

In 2005, the College filed a report with MassDEP documenting the absence of feasible remediation options for the Lake Waban unit of the site, and recommending that environmental conditions in the Lake be monitored rather than remediated. Since then, the College has been periodically monitoring sediment and surface water quality in Lake Waban, and on two occasions has submitted updated reports to MassDEP confirming the absence of feasible remedial options in the Lake. Annual Lake monitoring costs are insignificant. No additional remedial efforts are anticipated at the Lake Waban unit.

In 2014, the College, with the advance approval of MassDEP, submitted to the agency a report documenting the absence of ecological risks warranting remediation in the Lower Waban Brook unit of the site. No additional remedial efforts are anticipated at the Lower Waban Brook unit.

Under the terms of certain limited partnership agreements, the College is obliged to periodically advance additional funding for private equity investments. Such commitments generally have fixed expiration dates or other termination clauses. The College maintains sufficient liquidity in its investment portfolio to cover such calls.

In 2018, the College offered a voluntary retirement program to eligible faculty and staff. Total expenses related to the program, recorded in the nonoperating section of the Statement of Activities, was \$9,832,000. The future payment obligations of \$4,811,000 and \$6,092,000 at June 30, 2019 and 2018, respectively, are included in the accounts payable and accrued expenses section of the Statement of Financial Position.

The College has several legal cases pending that have arisen in the normal course of its operations. The College believes that the outcome of these cases will have no material adverse effect on the financial position of the College.

(14) Subsequent Events

The College has assessed the impact of subsequent events through October 25, 2019, the date the audited financial statements were issued, and has concluded that there are no such events that require adjustment to the audited financial statements or disclosure in the notes of the audited financial statements.

Exhibit II

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Board of Trustees Wellesley College:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Wellesley College (the College), which comprise the statement of financial position as of June 30, 2019, the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 25, 2019. Our report contains an emphasis of matter paragraph referring to the College's adoption of the new accounting guidance, Financial Statements of Not-for-Profit Entities, during the year ended June 30, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

II-1

Exhibit II

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Major Federal Program; Report on Internal Control Over Compliance; and Report on Supplementary Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The Board of Trustees Wellesley College:

Report on Compliance for Major Federal Program

We have audited Wellesley College's (the College) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the College's major federal program for the year ended June 30, 2019. The College's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the College's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the College's federal program. However, our audit does not provide a legal determination of the College's compliance.

Opinion on Major Federal Program

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2019.

Other Matter

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2019-001. Our opinion on the major federal program is not modified with respect to this matter.

The College's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The College is also responsible for preparing a corrective action plan to address the audit finding included in our auditors' report. The College's response and corrective action plan were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response or the corrective action plan.

Report on Internal Control Over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as 2019-001, which we consider to be a significant deficiency.

The College's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The College is also responsible for preparing a corrective action plan to address the audit finding included in our auditors' report. The College's response and corrective action plan were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response or the corrective action plan.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Supplementary Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the College as of and for the year ended June 30, 2019, and have issued our report thereon dated October 25, 2019, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other additional statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

WELLESLEY COLLEGE

Notes to Supplementary Schedule of Expenditures of Federal Awards

Year ended June 30, 2019

(1) Basis of Presentation

The accompanying Supplementary Schedule of Expenditures of Federal Awards (the Schedule) has been prepared using the accrual basis of accounting and is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The purpose of the Schedule is to present a summary of those activities of Wellesley College (the College) for the year ended June 30, 2019, which have been funded by the U.S. government (federal awards). Because the Schedule presents only a selected portion of the activities of the College, it is not intended to and does not present the total financial position, changes in net assets, and cash flows of the College.

For purposes of the Schedule, federal awards include all federal assistance received directly from the federal government and awards passed through to the College by nonfederal organizations pursuant to federal grants, contracts and similar agreements. The Schedule also denotes awards passed through from the College to other nonfederal subrecipient organizations.

(2) Basis of Accounting

The accompanying Schedule is presented using the accrual basis of accounting.

(3) Federal Perkins Loan Program

The College administers the Federal Perkins Loan Program. The authority to award new loans to undergraduate students expired on September 30, 2017 and no disbursements are permitted after June 30, 2018. The amount included on the Schedule includes the outstanding balance as of June 30, 2018 of \$2,916,313. The outstanding balance as of June 30, 2019 was \$2,368,919.

(4) Federal Direct Loan Program

The amount of loans advanced to students under the Federal Direct Loan Program (FDL) during the year ended June 30, 2019, was \$4,649,698.

With respect to the FDL, the College is responsible only for the performance of certain administrative duties as part of the initial disbursement of the loans and, accordingly, these loans are not included in the College's financial statements. It is not practical to determine the balances of loans outstanding to students of the College under this program at June 30, 2019.

(5) Facility and Administrative Costs

Facility and administrative costs allocated to certain awards for the year ended June 30, 2019 were based on predetermined rates negotiated with the College's federal oversight agency, the Department of Health and Human Services. The College negotiated four-year predetermined indirect cost rates of 75% for on-campus and 15% for off-campus activity based on direct salaries and wages. These rates are effective from July 1, 2017 through June 30, 2021. The College applied its predetermined approved facilities and administrative rates when charging indirect costs to federal awards and therefore did not elect the 10% de minimis cost rate as described in Section 200.414 of the Uniform Guidance.

WELLESLEY COLLEGE

Schedule of Findings and Questioned Costs Year ended June 30, 2019

(1) Summary of Auditors' Results

Financial Statements				
Type of auditors' report issued on whether financial statements were prepared in accordance with U.S. generally accepted accounting principles:	Unmodified			
Internal control over financial reporting:				
Material weakness(es) identified?		Yes	<u> </u>	No
 Significant deficiency(ies) identified not considered to be material weaknesses? 		Yes	<u> </u>	None reported
Noncompliance material to the financial statements noted?		Yes	<u> </u>	No
Federal Awards				
Internal control over major program:				
Material weakness(es) identified?		Yes	<u>X</u>	No
 Significant deficiency(ies) identified not considered to be material weaknesses? 	_X	Yes		None reported
Type of auditors' report issued on compliance for major programs:	Unmo	dified		
Any audit findings disclosed that are required to be reported in accordance with Section 200.516(a) of the Uniform Guidance	_X	Yes		None reported
Major Program Identified:				
Name of federal program	or cluster			CFDA numbers
Research and Development Cluster				Various
Dollar threshold used to distinguish between type A and type B programs:	\$750,0	000		
Auditee qualified as low-risk auditee?	X	Yes		No

WELLESLEY COLLEGE

Schedule of Findings and Questioned Costs Year ended June 30, 2019

(2) Findings Relating to the Financial Statements Reported in Accordance with *Government Auditing Standards*

None.

(3) Findings and Questioned Costs Relating to Federal Awards

Finding No.: 2019-001

Program Information:	Research and Development Cluster
Federal Agency:	National Aeronautics and Space Administration National Science Foundation National Institutes of Health
CFDA Number:	Various
Federal Award Year:	Various
Compliance Requirement:	Equipment and Real Property Management

Condition or Requirement

Non-federal entities other than states must follow 2 CFR sections 200.313(c) through (e), which require that property records must be maintained and include various information including, but not limited to, a description of the property, a serial number or other identification number, the source of funding for the property (including the FAIN), who holds title, the acquisition date, and cost of the property was acquired, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property (2 CFR section 200.313(d)(1)). Further, 2 CFR section 200.313(d)(2) requires a physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

Condition Found

The College does not have a formal procedure to tag all equipment purchased with federal funds and to update and maintain the listing of equipment purchased with federal funds with appropriate identifying information. The College did perform an inventory of all science equipment in anticipation of a major renovation of its science building, but this inventory listing was not reconciled to the listing of federally funded equipment nor were appropriate tags or identifying information included on the science equipment listing.

Possible Asserted Cause and Effect

The College does not have the appropriate processes, procedures and internal controls in place to update and validate the equipment listing to include all the required elements, including tagging equipment with appropriate identifying information and reconciling this listing to the overall equipment inventory listing and validation process.

WELLESLEY COLLEGE

Schedule of Findings and Questioned Costs Year ended June 30, 2019

Identification of Questioned Costs

None.

Whether Sampling was Statistically Valid

Our sample was not intended to be and was not a statistically valid sample.

Repeat Finding

No.

Recommendation

We recommend that the College review its current policies and procedures to ensure that equipment acquired under federal awards is appropriately tagged and identified as purchased with federal dollars and records are updated to and reconciled to inventory records ensure compliance with federal regulations.

Management's Response

Management recognizes the importance of maintaining compliance with requirements over equipment purchased with Federal funds. The College will review and update its process and procedures related to equipment purchased under federal awards, and will implement a formalized identification/tagging and record keeping process that is validated through an inventory process to ensure compliance with federal regulations.

Reference Number: 2019-001

Program Information: Research and Development Cluster

Federal Agency: National Aeronautics and Space Administration, National Science Foundation National Institutes of Health

Contact Person: Melissa Fletcher

Anticipated Completion: 06/30/2020

Fiscal year in which finding occurred: 2019

Condition

The College does not have a formal procedure to tag equipment purchased with federal dollars and to update and maintain the listing of equipment purchased with federal funds with appropriate identifying information. The College did perform an inventory of all science equipment in anticipation of a major renovation of its science building but this inventory listing was not reconciled to the listing of federally funded equipment nor were appropriate tags or identifying information included on the science equipment listing.

Management View

Management recognizes the importance of maintaining compliance with requirements over equipment purchased with Federal funds. The College will review and update its process and procedures related to equipment purchased under federal awards, and will implement a formalized identification/tagging and record keeping process that is validated through an inventory process to ensure compliance with federal regulations.

Corrective Action

The College is in the process of reviewing and updating its financial responsibility agreement and procedures. The updated agreement will include a statement that will specifically address the Electronic Signatures in Global and National Commerce Act.
